Task Summary

Actions you were required to perform:

 Install DDR4 RAM in the computer

Actions you should not have performed:

 Do not try to install incorrect memory**Explanation**

In this lab, your task is to install DDR4 memory in the computer. All DDR4 memory have a single notch on the bottom, the DDR being the farthest from the middle.

Complete this lab as follows:

1. Above the computer, select **Motherboard** to switch to the motherboard view.
2. Zoom in to examine the **memory slots** for the motherboard.
3. Identify the **location** of the notches in the memory slot.
4. On the Shelf, expand **Memory Modules**.
5. Drag the **DDR4 RAM** from the Shelf and to a memory slot on the motherboard.
