Pass Status: Pass

Required Score: 100%

Task Summary

Actions you were required to perform:

- ✓ Update the driver for the Broadcom network adapter
- ✓ Disable the Realtek network adapter

Explanation

In this lab, your task is to complete the device configuration using Device Manager as follows:

- Update the device driver for the Broadcom network adapter using the driver in the D:\drivers folder.
- Disable the Realtek network adapter.

Complete this lab as follows:

1. Right-click **Start** and select **Device Manager**.
2. Expand **Network adapters**.
3. Right-click **Broadcom NetXtreme 57xx Gigabit Controller** and select **Update driver**.
4. Select **Browse my computer for driver software** to use the driver that you have downloaded.
5. In the Search for driver software in this location field, enter **D:\drivers**.
6. Make sure **Include subfolders** is selected and then click **Next**.
7. After the driver is installed, click **Close**.
8. Right-click **Realtek 8169** and select **Disable device**.
9. Click **Yes** to confirm that you want to disable the device.
