## Your Performance

Your Score: 0 of 1 (0%)

Elapsed Time: 2 minutes 55 seconds

Pass Status: Not Passed

Required Score: 100%

## Task Summary

Actions you were required to perform:

✖ Set Target

## Explanation

In this lab, your task is to:

- Use the **systemctl** command to make **rescue.target** the default boot target.
- Use **systemctl get-default** to verify that the current default target is **rescue.target**.

Complete this lab as follows:

1. At the prompt, type **systemctl set-default rescue.target** and press **Enter** to change the default boot target to **rescue.target**.
2. Type **systemctl get-default** and press **Enter** to verify that the current default target is **rescue.target**.
