Explanation

Use Active Directory Users and Computers on CorpDC to create groups and add members to them.

Complete this lab as follows:

1. From Hyper-V Manager, select **CORPSERVER**.
2. Right-click the **CorpDC** server and select **Connect** (maximize the window for easier viewing).
3. From Server Manager, select **Tools > Active Directory Users and Computers**.
4. Expand **CorpNet.com**.
5. Right-click the *container* for the new group and select **New > Group**.
6. In the Group name field, enter the *name* of the group (a pre-Windows 2000 group name will be created automatically, but can be changed).
7. Select a *group scope*.
8. Select a *group type*; then click **OK**.
9. To add users to the group, right-click the *user account* and select **Add to a group**. (Use the Ctrl or Shift keys to select and add multiple user accounts to a group at one time.)
10. In the Enter the object names to select field, type the *name* of the group. To browse for the group:
 - a. Select **Advanced**.
 - b. Select **Find Now**.
 - c. Under Search results, select the *group*.
 - d. Click **OK** twice.
11. Click **OK**.
12. Repeat steps 4-10 for additional groups.
