Explanation

In this lab, your task is to edit the local security policy and configure settings as follows:

Policy Location	Policy	Setting
Account Policies/Password Policy	Enforce password history	4
	Maximum password age	30
	Minimum password age	2
	Minimum password length	10
	Passwords must meet complexity requirements	Enabled
Account Policies/Account Lockout Policy	Account lockout threshold	4
	Account lockout duration	60
	Reset account lockout counter after	30

Complete this lab as follows:

1. Select **Start**.
2. Select **Windows Administrative Tools**.
3. Select **Local Security Policy**.
4. In the left pane, expand **Account Policies**.
5. Select **Password Policy**.
6. Double-click the ***policy*** you want to configure.
7. Configure the ***policy settings***.
8. Click **OK**.
9. Repeat steps 6–8 to configure additional policies.
10. Select **Account Lockout Policy**.
11. Repeat steps 6–8 to configure policy settings.

Select the **Explain** tab for a description of the effects of the policy to help you identify which policy to configure with which value.
