Your Performance

Your Score: 0 of 8 (0%)

Elapsed Time: 7 minutes 22 seconds

Pass Status: Not Passed

Required Score: 100%

Task Summary

- ✗ Enforce password history to remember 10 passwords
- ✗ Set the maximum password age to 90
- ✗ Set the minimum password age to 14
- ✗ Set the minimum password length to 10
- ✗ Enforce password complexity
- ✗ Set the account lockout duration to 60
- ✗ Set the account lockout threshold to 5
- ✗ Set the reset account lockout after policy to 10

Explanation

Account policies are set in a GPO linked to the domain. In this scenario, you edit the default domain policy and configure settings in the following path:

Computer Configuration\Policies\Windows Settings\Security Settings\Account Policies

Set the following account policy settings:

Policy	Security setting	Value
Password Policy	Enforce password history	10 passwords remembered
	Maximum password age	90 days
	Minimum password age	14 days
	Minimum password length	10 characters
	Password must meet complexity requirements	Enabled
Account Lockout Policy	Account lockout duration	60 minutes
	Account lockout threshold	5 incorrect passwords
	Reset account lockout counter after	10 minutes

To complete this lab, perform the following:

1. From Hyper-V Manager, select **CORPSERVER**.
2. Right-click **CorpDC** and select **Connect**.
3. From Server Manager, select **Tools > Group Policy Management**.
4. Expand **Forest: CorpNet.com**.

5. Expand **Domains**.
6. Expand **CorpNet.com**.
7. Right-click **Default Domain Policy** and select **Edit**.
8. In the Group Policy Management editor, browse to **Computer Configuration\Policies\Windows Settings\Security Settings\Account Policies**.
9. Expand **Account Policies**.
10. Modify password policies as follows:
 - a. In the left pane, select **Password Policy**.
 - b. In the right pane, right-click the *policy* you want to edit and select **Properties**.
 - c. Edit the *value* for the policy; then click **OK**.
 - d. Repeat steps 10b-10c for each policy.
11. Modify account lockout policies as follows:
 - a. In the left pane, select **Account Lockout Policy**.
 - b. In the right pane, right-click the *policy* you want to edit and select **Properties**.
 - c. If the policy is currently undefined, select **Define this policy setting**.
 - d. Edit the *value* for the policy; then click **OK**.
 - e. Repeat steps 11b-11d for additional policies.
