Task Summary

✖ Create the MrktgPrinter printer [Hide Details](#)

- ☐ Create the printer object
- ☐ Use the 192.168.0.22 standard TCP/IP port
- ☐ Use the KONICA MINOLTA PS driver
- ☐ Share the printer as MrktgPrinter
- ☐ Do not list in Active Directory
- ☐ Make the printer available from 12:00 am to 4:00 am
- ☐ Do not set the priority to 99
- ☐ Deploy to computers (not users) in the MarketingGPO group policy object

✖ Make the KonicaColor printer available from 4am to 12am [Hide Details](#)

- ☐ Set the availability start time to 4:00 am
- ☐ Set the availability end time to 12:00 am
- ☐ Do not set the priority to 99

✖ Create the MgrPrinter printer [Hide Details](#)

- ☐ Create the printer object
- ☐ Use the 192.168.0.22 Standard TCP/IP Port
- ☐ Use the KONICA MINOLTA PS driver
- ☐ Share the printer as MgrPrinter
- ☐ Do not list in Active Directory
- ☐ Set the priority to 99
- ☐ Grant the Managers group Allow Print permissions
- ☐ Prevent Everyone from using the printer

Explanation

In this lab, you perform the following:

- Create a new printer called **MrktgPrinter** using the existing port and driver.
 - Share the printer with the same name.
 - Do not list in Active Directory.
 - Make the printer available from **12:00 am** to **4:00 am**.
 - Deploy the printer to computers in the Marketing OU using the MarketingGPO group policy object.
- Set the existing **KonicaColor** printer to be available between **4:00 am** and **12:00 am**.
- Create a new printer called **MgrPrinter** using the existing port and driver.
 - Share the printer with the same name.
 - Do not list in Active Directory.
 - Set the printer priority to **99**.
 - Prevent the **Everyone** group from printing to the printer.
 - Allow members of the **Managers** group to print.

Complete this lab as follows:

1. Create a new printer object as follows:
 - a. From Hyper-V Manager, select **CORPSEVER**.
 - b. Maximize the window to view all virtual machines.
 - c. Right-click **CorpFiles16** and select **Connect**.
 - d. From Server Manager, select **Tools > Print Management**.
 - e. Expand **Printer Servers**.
 - f. Expand **CorpFiles16 (local)**.
 - g. Right-click **Printers** and select **Add Printer**.
 - h. Select **Add a new printer using an existing port**.
 - i. From the drop-down list, select the *port* of the Konica printer; then click **Next**.
 - j. Select **Use an existing printer driver on the computer**.
 - k. From the drop-down list, select the **Konica driver** from the list; then click **Next**.
 - l. Enter the *printer name*.
 - m. Make sure **Share this printer** is selected.
 - n. Enter the *share name*; then click **Next**.
 - o. Click **Next**.
 - p. Click **Finish**.
 - q. Repeat step 1g-1p for additional printers.
2. Modify printer availability times as follows:
 - a. Right-click the *printer* and select **Properties**.
 - b. Select the **Advanced** tab.
 - c. Select **Available from**.
 - d. Enter the *start* and *end times*.
 - e. Click **OK**.
 - f. Repeat step 2 for additional printers.
3. Deploy a printer using a group policy as follows:
 - a. Right-click the **MrktgPrinter** and select **Deploy with Group Policy**.
 - b. Select **Browse**.
 - c. Double-click **Marketing.CorpNet.com**.
 - d. Select the **MarketingGPO**; then click **OK**.
 - e. Select **The computers that this GPO applies to (per machine)** to deploy the printer to the computer, regardless of who is logged on.
 - f. Select **Add**.
 - g. Click **OK**.
 - h. Click **OK** to acknowledge the message.
4. Modify printer priority as follows:
 - a. Right-click **MgrPrinter** and select **Properties**.
 - b. Select the **Advanced** tab.
 - c. In the Priority field, enter **99**. A higher number means a higher priority, with 99 being the highest.
 - d. Click **Apply**.
5. Modify printer permissions as follows:
 - a. In the MgrPrinter Properties dialog, select the **Security** tab.
 - b. Select **Everyone**.
 - c. Select **Remove** to prevent the group from using the printer.
 - d. Select **Add** to assign permissions to a new user or group.
 - e. In the Enter the object names to select field, enter **Managers**; then click **OK**.
 - f. With Managers selected, select the appropriate *permissions*.
 - g. Click **OK**.
