### Task Summary

- ✗ Create a quota entry for the Guest account
- ✗ Set the quota limit to 500 MB for the Guest account
- ✗ Set the warning level to 1 KB for the Guest account

### Explanation

In this lab, you should have edited the properties for the D: drive by creating a new quota entry using the following settings:

- User: **Guest**
- Quota limit: **500 MB**
- Warning level: **1 KB**

Complete the following:

1. From Hyper-V Manager, select **CORPSERVER**.
2. Maximize the window to view all virtual machines.
3. Right-click **CorpFiles12** and select **Connect**.
4. On the taskbar of CorpFiles12, select **File Explorer**.
5. Right-click the *drive*.
6. From the menu, select **Properties**.
7. Select the **Quota** tab.
8. On the Quota tab, select **Quotas Entries**.
9. Select **Quotas > New Quotas Entry**.
10. Under Enter the object names to select, enter **Guest**; then click **OK**.
11. Select **Limit disk space to**.
12. In the disk space limit field, enter **500 MB**.
13. Under Set warning level to, enter **1 KB**; then click **OK**.
14. Close the Quota Entries window.
15. In the Data (D:) Properties window, click **OK**.
16. In the Disk Quotas window, click **OK**.
