Required Score: 100%

Task Summary

Actions you were required to perform:

- ✓ Set the active hours for the workstation to 6 am-11 pm
- ✓ Install updates semi-annually
- ✓ Provide updates for other Microsoft products when Windows is updated.
- ✓ Defer updates for 90 days
- ✓ Set security improvements to 0 days
- ✓ Make sure Pause Updates is set to Off.

Explanation

In this lab, your task is to complete the following:

- Set the active hours of the workstation to **6:00 a.m. to 11:00 p.m.**
- Configure Windows Update to install updates **semi-annually**.
- Allow other Microsoft products to update when I update Windows.
- Defer the update for **90** days.
- Set security improvements for **0** days.
- Set Pause Updates to **Off**.

Complete this lab as follows:

1. Right-click **Start** and select **Settings**.
2. Maximize the window for easier viewing.
3. Select **Update & security**.
4. Under Update Settings, select **Change active hours**.
5. Set the Start time to **6:00 a.m.**
6. Select the **check mark**.
7. Set the End time to **11:00 p.m.**
8. Select the **check mark**.
9. Select **Save**.
10. Select **Advanced options**.
11. Select **Give me updates for other Microsoft products when I update Windows**.
12. From the Choose when updates are installed drop-down list, select **Semi-Annual Channel**.
13. From the deferred update drop-down list, select **90**.
14. From the deferred security improvements drop-down list, select **0**.
15. Set Pause Updates to **Off**.
