## Your Performance

Your Score: 5 of 5 (100%)

Elapsed Time: 3 minutes 13 seconds

Pass Status: Pass

Required Score: 100%

## Task Summary

Actions you were required to perform:

- ✓ Connect the USB hub to the computer
- ✓ Connect the inkjet printer to a USB port
- ✓ Connect the laser printer into a USB port
- ✓ Connect the scanner to a USB hub
- ✓ Connect the external hard drive to a USB port

## Explanation

In this lab, your task is to complete the following:

- Connect the USB hub to the computer.
- Connect the inkjet printer to a USB port.
- Connect the laser printer to a USB port.
- Connect the scanner to a USB port.
- Connect the external hard drive to a USB port.

Complete this lab as follows:

1. Connect the USB hub to the computer as follows:
  - a. Above the computer, select **Back** to switch to the back view of the computer.
  - b. On the Shelf, expand **Hubs**.
  - c. Drag the **External USB hub** to the Workspace.
  - d. Above the USB hub, select **Back** to switch to the back view of the USB hub.
  - e. On the Shelf, expand **Cables**.
  - f. Select **USB Cable (A/5-pin mini)**.
  - g. Under Selected Component, drag the **USB Mini-B Vertical Connector** to the USB port on the back of the USB hub.
  - h. Under Selected Component, drag the **USB Type A Connector** to an open USB port on the back of the computer.
  - i. Above the USB hub, select **Front** to switch to the front view of the USB hub.
2. Connect the USB hub to the computer as follows:
  - a. Above the inkjet printer, select **Back** to switch to the back view of the inkjet printer.
  - b. Identify the **USB port**.
  - c. On the Shelf, select **USB Cable (A/B)**.
  - d. Under Selected Component, drag the **USB Type B Connector** to the USB port on the inkjet printer.
  - e. Under Selected Component, drag the **USB Type A Connector** to an open USB port on the computer or on the front of the USB hub.
3. Connect the laser printer to a USB port as follows:
  - a. Above the laser printer, select **Back** to switch to the back view of the laser printer.
  - b. Identify the **USB port**.
  - c. On the Shelf, select **USB Cable (A/B)**.
  - d. Under Selected Component, drag the **USB Type B Connector** to the USB port on the laser printer.
  - e. Under Selected Component, drag the **USB Type A Connector** to an open USB port on the computer or on the front of the USB hub.
4. Connect the scanner to a USB port as follows:
  - a. Above the scanner, select **Back** to switch to the back view of the scanner.

- b. Identify the **USB port**.
  - c. On the Shelf, select **USB Cable (A/B)**.
  - d. Under Selected Component, drag the **USB Type B Connector** to the USB port on the scanner.
  - e. Under Selected Component, drag the **USB Type A Connector** to an open USB port on the computer or on the front of the USB hub.
5. Connect the external hard drive to a USB port as follows:
- a. On the Shelf, expand **Hard Drives**.
  - b. Drag the **External Hard Drive** onto the Workspace.
  - c. Above the external hard drive, select **Back** to switch to the back view of the hard drive.
  - d. Examine the **ports** on the hard drive. If necessary, zoom in to get a better view of the ports.
  - e. Identify the **USB port**.
  - f. On the Shelf, expand **Cables**.
  - g. Select **USB Cable (A/5-pin mini)**.
  - h. Under Selected Component, drag the **USB Mini-B Vertical Connector** to the USB port on the external hard drive.
  - i. Under Selected Component, drag the **USB Type A Connector** to an open USB port on the computer or on the front of the USB hub.
