## Your Performance

Your Score: 2 of 2 (100%)

Elapsed Time: 2 minutes 2 seconds

Pass Status: Pass

Required Score: 100%

## Task Summary

Actions you were required to perform:

 Edit permissions for the D:\Day Data folderHide Details

-  Turn off permission inheritance for the folder
-  Convert existing permissions
-  Remove Users Group
-  Add the DayGroup group to the access control list
-  Assign DayGroup Allow Full Control permissions

 Edit permissions for the D:\Night Data folderHide Details

-  Turn off permission inheritance for the folder
-  Convert existing permissions
-  Remove Users Group
-  Add the NightGroup group to the access control list
-  Assign NightGroup Allow Full Control permissions

## Explanation

In this lab, your task is to edit the NTFS permissions for the D:\Day Data and D:\Night Data folders.

- Turn off permissions inheritance, converting the existing permissions as explicit permissions.
- Remove the **Users** group from the ACL of each folder.
- Add the appropriate group to the folder ACL.
- Assign **Full Control** over each folder to the appropriate group.
- Do not change any other permissions assigned to other users or groups.

Complete this lab as follows:

1. Turn off permissions inheritance as follows:
  - a. From the taskbar, open **File Explorer**.
  - b. Maximize the window for easier viewing.
  - c. Select **This PC**.
  - d. Select **Data (D:)**.
  - e. Right-click the **folder** whose permissions you want to modify and select **Properties**.
  - f. Select the **Security** tab.
  - g. Select **Advanced**.
  - h. Select **Disable inheritance**.
  - i. Select **Convert inherited permissions into explicit permissions on this object**.
2. Remove the Users group from the ACL of each folder as follows:
  - a. Select **Users**.
  - b. Select **Remove**.
  - c. Click **OK**.
3. Add the appropriate group to the folder ACL as follows:
  - a. Select **Edit**.
  - b. Select **Add**.

- c. Enter the ***name*** of the group you want to add.
  - d. Click **OK**.
4. Assign Full Control over each folder to the appropriate group as follows:
  - a. With the group highlighted, select **Full Control** under the Allow column.
  - b. Click **OK**.
  - c. Click **OK**.
5. Repeat steps 1e–4 to modify the permissions for additional folders.
