

Lab Report

Your Performance

Your Score: 3 of 3 (100%)

Elapsed Time: 1 minute 59 seconds

Pass Status: Pass

Required Score: 100%

Task Summary

Actions you were required to perform:

- ✓ Configure system protection on the C: volume
- ✓ Configure system protection on the D: volume
- ✓ Create a manual restore point

Explanation

In this lab, your task is to complete the following:

- Turn on system protection on the C: volume and set a maximum of 5% of disk space for system protection.
- Turn on system protection on the D: volume and set a maximum of 5% of disk space for system protection.
- Create a manual restore point. When naming the restore point, choose your own name for the restore point.

Complete this lab as follows:

1. On the taskbar, open **File Explorer**.
2. Right-click **This PC** and select **Properties**.
3. On the left, select **System protection**.
4. Select the **disk** to configure system protection.
5. Select **Configure**.
6. Select **Turn on system protection**.
7. Under Disk Space Usage, slide the Max Usage tab to **5%**.
8. Click **OK**.
9. Repeat steps 4-8 for additional drives.
10. Select **Create** to create a restore point.
11. Type a ***name of your choice*** for the restore point name.
12. Select **Create**.
13. Click **Close**.
