Elapsed Time: 14 minutes 43 seconds

Pass Status: Pass

Required Score: 100%

Task Summary

- ✓ Create the Managers domain local distribution group in the Users container [Show Details](#)
- ✓ Add the correct objects as members of the Managers distribution group [Show Details](#)

Explanation

Use Active Directory Users and Computers on CorpDC to create groups and add members to groups.

Following are steps an expert might take to complete this lab:

1. From Hyper-V Manager, select **CORPSEVER**.
2. Right-click the **CorpDC** server and select **Connect** (maximize the window for easier viewing).
3. From Server Manager, select **Tools > Active Directory Users and Computers**.
4. Browse to the **Users** OU.
5. Right-click **Users** and select **New > Group**.
6. In the Group name field, type **Managers** (a pre-Windows 2000 group name will be created automatically but can be changed).
7. Select the **group scope**.
8. Select the **group type**; then click **OK**.
9. To modify the group membership, right-click the **Managers** group and select **Properties**.
10. Select the **Members** tab.
11. To add a group member (user account, computer account, or other group), use the following steps for each member you would like to add:
 1. Select **Add**.
 2. In the Enter the object names to select field, type the **name** of the object that you want to add or enter multiple objects separated by a semicolon.
 3. Click **OK** to add the new group member.
12. Click **OK** to apply the changes.
