- ✓ Configure services to start automaticallyHide Details

- + Start the Print Spooler service automatically
- + Start the Bluetooth Support service automatically
- + Start the Offline Files service automatically

- ✓ Configure compatibility mode settings for AccountWizard.exeHide Details

- + Run at 640x480
- + Run as an administrator

Explanation

In this lab, your task is to complete the following on Office1:

- Use System Configuration to prevent the following services from loading at system startup:
 - Link-Layer Topology Discovery
 - SNMP Trap
 - Telephony
- Use Task Manager to prevent the following applications from running at system startup:
 - Compy DVD Apps
 - DIRE Event Monitor
 - inTune
 - SM66 Win32 Utility

- Use Computer Management to start the following services and configure them to start automatically when the system starts:
 - Bluetooth Support Service
 - Offline Files
 - Print Spooler
- Configure compatibility settings for the C:\Program Files (x86)\AccountWizard\AccountWizard.exe application using the following compatibility mode settings:
 - Run in Windows 8 mode
 - Run in 640 x 480 resolution
 - Run as administrator every time

Complete this lab as follows:

1. Prevent services from running at startup as follows:
 - a. Select **Start**.
 - b. Select **Windows Administrative Tools**.
 - c. Select **System Configuration**.
 - d. Select the **Services** tab.
 - e. Unmark **Link-Layer Topology Discovery Mapper**.
 - f. Unmark **SNMP Trap**.
 - g. Unmark **Telephony**.
 - h. Select **Apply**.
 - i. Close System Configuration.
2. Prevent applications from running as follows:
 - a. Right-click **Start** and select **Task Manager**.
 - b. Select **Compy DVD Apps**; then select **Disable**.
 - c. Select **DIRE Event Monitor**; then select **Disable**.
 - d. Select **inTune**; then select **Disable**.
 - e. Select **SM66 Win32 Utility**; then select **Disable**.
 - f. Close Task Manager.
3. Start and modify services as follows:
 - a. Right-click **Start** and select **Computer Management**.
 - b. Maximize the window for easier viewing.
 - c. In the left pane, double-click **Services and Applications**.
 - d. In the middle pane, double-click **Services**.
 - e. Right-click the **service** and select **Properties**.
 - f. From the Startup type drop-down list, select **Automatic**.
 - g. Select **Apply**.
 - h. Select **Start** to get the service started.
 - i. Click **OK**.
 - j. Repeat steps 3e–3i for additional services.
 - k. Close Services.
4. To modify compatibility settings for an application:
 - a. Open **File Explorer**.
 - b. Expand **This PC**.
 - c. Expand the **C:** drive.
 - d. Double-click **Program Files (x86)**.
 - e. Double-click **AccountWizard**.
 - f. Right-click **AccountWizard.exe** and select **Properties**.
 - g. Select the **Compatibility** tab.
 - h. Under Compatibility mode, select **Run this program in compatibility mode for**.
 - i. From the drop-down list, select **Windows 8**.
 - j. Select **Run in 640 x 480 resolution**.
 - k. Select **Run this program as an administrator**.
 - l. Click **OK**.
