**Explanation**

The following table summarizes the delegations you perform to complete this lab:

Group	Delegation Level/Object	Delegated Tasks
PasswordAdmins	CorpNet.com domain	Reset user passwords and force password change at next logon
ComputerAdmins	CorpNet.com domain	Join a computer to the domain
GPOLinkAdmins	Accounting OU Marketing OU Research-Dev OU Sales OU Support OU	Manage Group Policy links

Complete this lab as follows:

1. Create a group as follows:
  - a. From Hyper-V Manager, select **CORPSEVER**.
  - b. Right-click **CorpDC** and select **Connect**.
  - c. From Server Manager, select **Tools > Active Directory Users and Computers**.
  - d. Browse to the **Users** OU.
  - e. Right-click **Users** and select **New > Group**.
  - f. Enter the **name** for the group (a pre-Windows 2000 group name will be created automatically, but can be changed).
  - g. Make sure **Global** is selected as the group scope.
  - h. Make sure **Security** is selected as the group type; then click **OK**.
  - i. Repeat steps 1e-1h for each group.
2. Delegate the necessary permissions as follows:
  - a. From Active Directory Users and Computers, browse the Active Directory structure to the level where you want to delegate control (the domain or an OU).
  - b. Right-click the appropriate **OU** or **domain** and select **Delegate Control**.
  - c. In the Welcome window, click **Next**.
  - d. In the Users or Groups window, click **Add** to add groups.
  - e. Enter the **name** of the group to be added; then click **OK**.
  - f. Click **Next**.
  - g. Select the **box** of the task you want to delegate; then click **Next**.
  - h. Click **Finish**.
  - i. Repeat steps 2b-2h for each group.
