Required Score: 100%

Task Summary

- ✓ Share D:\Users as Home Folders
- ✓ Keep the default permissions

Explanation

In this lab, you use File Explorer to add Home Folders as a share name for the D:\Users folder and keep the default user limits, share permissions, and offline files settings.

Complete this lab as follows:

1. From Hyper-V Manager, select **CORPSERVER**.
2. Maximize the window to view all virtual machines.
3. Right-click **CorpFiles12** and select **Connect**.
4. On the taskbar, select **File Explorer**.
5. Browse to **D:\Users**.
6. Right-click the *folder* and select **Properties**.
7. Select the **Sharing** tab.
8. Click **Advanced Sharing**.
9. Click **Add**.
10. In the Share name field, enter **Home Folders**.
11. Click **OK** twice.
