Task Summary

Actions you were required to perform:

- ✓ Modify the boot device order [Show Details](#)

Explanation

In this lab, your task is to configure the system to boot using devices in the following order:

- Internal HDD.
- CD/DVD/CD-RW drive.
- Onboard NIC.
- USB storage device.
- Disable booting from the diskette drive.

Complete this lab as follows:

1. Click the **Power** button on the computer.
2. As the BIOS loads, press the **Delete** key.
3. In the left pane, select **Boot Sequence**.
4. On the right-hand side, select the **device** to modify the boot device order.
5. Move the **device** up or down using the arrows to the right of the device list.
6. Repeat steps 4-5 to modify additional device priorities as required.
7. To the left, unmark **Diskette Drive** to disable the device.
8. Select **Apply**.
9. Select **Exit**.
