Your Performance

Your Score: 2 of 2 (100%)

Elapsed Time: 5 minutes 37 seconds

Pass Status: Pass

Required Score: 100%

Task Summary

- ✓ Change the Managers group scope to Global.
- ✓ Change the Managers group type to Security.

Explanation

To change the scope from domain local to global, you must select the Universal scope first and apply the change. This will allow the Global scope as an option. The same applies when changing the scope from global to domain local.

Complete this lab as follows:

1. From Hyper-V Manager, select **CORPSEVER**.
2. Right-click **CorpDC** and select **Connect** (maximize the window for easier viewing).
3. From Server Manager, select **Tools > Active Directory Users and Computers**.
4. Browse to the **Managers** group in the Users OU.
5. Right-click **Managers** and select **Properties**.
6. On the General tab, select **Universal**.
7. Click **Apply**.
8. Select **Global**.
9. Under Group type, select **Security**.
10. Click **OK** to apply the changes.
