➕ Create the Workstations OU
➕ Prevent accidental deletion of the Workstations OU

Explanation

In this lab, your task is to create OUs on CorpDC as follows:

- Beneath the domain, create the OUs listed below. While creating each OU, make the changes required to prevent accidental deletion.
    - Accounting
    - Admins
    - Marketing
    - Research-Dev
    - Sales
    - Servers
    - Support
    - Workstations
- Within the Sales OU, create the following OUs:
    - SalesManagers
    - TempSales

Complete this lab as follows:

1. In Hyper-V Manager, select **CORPSERVER**.
2. Under Virtual Machines, right-click **CorpDC** and select **Connect**.
3. In Server Manager, select **Tools** > **Active Directory Users and Computers**.
4. In the left pane, right-click **CorpNet.com**.
5. Select **New** > **Organizational Unit**.
6. In the Name field, enter the *OU name*.
7. Make sure **Protect container from accidental deletion** is selected.
8. Click **OK**.
9. Repeat steps 4–8 to create additional OUs.
10. Create OUs in the Sales container as follows:
    a. In the left pane, right-click **Sales**.
    b. Select **New** > **Organizational Unit**.
    c. In the Name field, enter the *OU name*.
    d. Make sure **Protect container from accidental deletion** is selected.
    e. Click **OK**.
    f. Repeat step 10 to create additional OUs.
