Task Summary

Actions you were required to perform:

- ✔ Rename the bcassini user account to bpalmer
- ✔ Change the comment field to Brenda Palmer
- ✔ Change the home directory to /home/bpalmer
- ✔ Move the home directory contents

Explanation

In this lab, your task is to use the **usermod** command to complete the following:

- Rename the user account **bpalmer**. Use the **-l** switch followed by the new account name.
- Change the comment field to read **Brenda Palmer**. Use the **-c** switch followed by the new comment in quotes.
- Change the home directory to **/home/bpalmer**, moving the contents of the old home directory to the new location. Use the **-d** switch followed by the home directory path and then the **-m** switch to move the contents to the new location.
- When you're finished, view the **/etc/passwd** file and **/home** directory to verify the modification of the account.

Complete this lab as follows:

1. At the prompt, type **usermod -c "Brenda Palmer" -d /home/bpalmer -m -l bpalmer bcassini** and press **Enter**.
2. Type **cat /etc/passwd** and press **Enter**.
3. Type **ls /home** and press **Enter** to verify that the account was modified.
