Task Summary

Actions you were required to perform:
- ✔ Change Target
- ✔ Login as Root

Explanation

In this lab, your task is to:

- Use the **systemctl** command to make rescue.target the current target.
- After changing to rescue.target, log back in as **root** using **1worm4b8** as the password.

Complete this lab as follows:

1. At the prompt, type **systemctl isolate rescue.target** and press **Enter** to change the runlevel to rescue.target.
2. Enter the password **1worm4b8** and press **Enter** to log in to the root account after changing the current target.
