Lab Report

Your Performance

Your Score: 3 of 5 (60%)   Pass Status: Not Passed

Elapsed Time: 5 minutes 3 seconds   Required Score: 100%

Task Summary

✔️ Enabled shadow copies on drive H:\

❌ Store shadow copies on drive D:\

✔️ Limit shadow copies to 24000 MB

✔️ Take shadow copies at 8:00 pm every day

Actions you should not have performed:

❌ Do not schedule any other shadow copies

Explanation

In this lab, you configure shadow copies as follows:

- Enable shadow copies on **H: drive**.
- Store the copies on the **D: drive**.
- Configure a **24000 MB** limit for shadow copies.
- Configure a single schedule to run **once a day** at **8:00 pm**.
- Delete any other schedules.

To complete this lab, perform the following:

1. From Hyper-V Manager, select **CORPSERVER**.
2. Maximize the window to view all virtual machines.
3. Right-click **CorpFiles16** and select **Connect**.
4. On the taskbar, open **File Explorer**.
5. Right-click the *drive* and select **Configure Shadow Copies**.
6. Select the *drive*.
7. Select **Settings**.
8. Under Located on this volume, select the *drive* where the shadow copies will be stored.
9. Make sure **Use limit** is selected.
10. Enter the *amount* of space to use for shadow copies.
11. Select **Schedule**.
12. Under Schedule Task, select **Daily** from the drop-down list.
13. Under Start time, enter **8:00 pm**.
14. Under Schedule, select the other **schedule** from the drop-down list.
15. Click **Delete**.
16. Click **OK** to save changes to the schedule.
17. Click **OK** to close Settings.
18. Click **OK** to close Shadow Copies.
