## Task Summary

Actions you were required to perform:

✔ Enable the screen saver

✔ Enable the screen saver after 10 minutes

✔ Show the logon screen when the computer wakes

## Explanation

In this lab, your task is to complete the following:

- Enable the screen saver (you choose the screen saver type to use).
- Start the screen saver after 10 minutes of inactivity.
- Show the logon screen when the computer wakes up.

Complete this lab as follows:

1. Right-click the **desktop** and select **Personalize**.
2. Maximize the window for easier viewing.
3. From the left menu, select **Lock Screen**.
4. Select **Screen saver settings**.
5. Under Screen Saver, select the ***screen saver*** to use.
6. In the Wait field, enter **10**.
7. Select **On resume, display logon screen**.
8. Click **OK**.
