Your answer: Lynette Pratt
Correct answer: Lynette Pratt

✔ Q3What is the name of the company requesting payment?
Your answer: ACME, Inc
Correct answer: ACME, Inc

Explanation

In this lab, your task is to:

- Capture packets on the enp2s0 interface using Wireshark.
- Find packets containing invoice emails using display filters.
- Check to see if the following information can be seen in clear text format in the invoice emails:
    - Source and destination email addresses
    - Names of those that sent or received the emails
    - Customer information
- Answer the questions.

Complete this lab as follows:

1. From the Favorites bar, open Wireshark.
2. Under Capture, select **enp2s0**.
3. Select the **blue fin** to begin a Wireshark capture.
4. After a few seconds, select the **red box** to stop the Wireshark capture.
5. In the Apply a display filter field, type **tcp contains Invoice** and press **Enter**.
6. From the bottom panel, exam the packet information and locate the following:
    - The account manager's email address.
    - The recipient of the email's full name.
    - The name of the company requesting payment.
7. In the top right, select **Answer Questions**.
8. In the bottom pane of Wireshark, exam the packet information to answer the questions.
9. Answer the questions.
10. Select **Score Lab**.
