___

### Your Performance

Your Score: 2 of 2 (100%)                                                        Pass Status: Pass
Elapsed Time: 2 minutes 51 seconds                                      Required Score: 100%

### Task Summary

Actions you were required to perform:
- ✔ Set the printer as the default printer
- ✔ Change the printer driver

### Explanation

In this lab, your task is to correct the problem by completing the following:

- Change the printer to use the **Canon Inkjet PIXMA iP1500** driver (for the x86 platform).
- Set the printer to be the default printer.

Complete this lab as follows:

1. Select **Start**.
2. Select **Settings**.
3. Select **Devices**.
4. Maximize the window for easier viewing.
5. Under Related settings, select **Devices and Printers**.
6. Right-click **Canon Inkjet PIXMA iP1500** and select **Printer properties**.
7. Select the **Advanced** tab.
8. Select **New Driver**.
9. Click **Next**.
10. Under Manufacturer, select **Canon**.
11. Under Printers, select **Canon Inkjet PIXMA iP1500**.
12. Click **Next**.
13. Click **Finish**.
14. Click **OK**.
15. Right-click **Canon Inkjet PIXMA iP1500** and select **Set as default printer**.
