Explanation

In this lab, you configure the following User Rights Assignment policies in the ServerGPO policy object:

User Rights Assignment Policy	Group
Allow log on locally	**Administrators**
Allow log on through Remote Desktop Services	**Administrators**
Manage auditing and security log	**CorpNet\Auditors**
Perform volume maintenance tasks	**Administrators**
Shut down the system	**Administrators**

Complete this lab as follows:

1. From Hyper-V Manager, select **CORPSERVER**.
2. Right-click **CorpDC** and select **Connect**.
3. From Server Manager, select **Tools** > **Group Policy Management**.
4. Expand **Forest:CorpNet.com** > **Domains** > **CorpNet.com** > **Group Policy Objects**.
5. Right-click **ServerGPO** and select **Edit**.
6. Under Computer Configuration, expand **Policies** > **Windows Settings** > **Security Settings** > **Local Policies**.
7. Select **User Rights Assignment**.
8. Right-click the *policy* you want to edit and select **Properties**.
9. Select **Define these policy settings**.
10. Select **Add User or Group**.
11. Enter the *name* of the user or group; then click **OK**.
12. Click **OK**.

13. Repeat steps 8-12 as needed to define additional policy settings.
