✓ Set the permissions for the /hr/personnel fileHide Details

> ➕ Remove the read other permission
>
> ➕ Remove the write other permission

✓ Set the permissions for the /hr/stats fileHide Details

> ➕ Remove the read other permission
>
> ➕ Remove the write other permission

Explanation

In this lab, your task is to configure permissions on all files in the /hr directory as follows:

- User and group owners should have **Read** and **Write** permissions to the files.
- All other users should have no permissions on any file.
- Use the **ls** command to verify your changes.

Complete this lab as follows:

1. At the prompt, type **chmod 660 /hr/*** and press **Enter** to set the permissions on all files in the /hr folder to the same permissions.
2. Type **ls -la /hr** and press **Enter** to verify the changes.
