Elapsed Time: 1 minute 36 seconds   Required Score: 100%

Task Summary

✖ Delete the Marketing\Workstations OU

✖ Delete the Research-Dev\Workstations OU

✖ Delete the Sales\Workstations OU

Explanation

Use Active Directory Users and Computers to delete OUs. You must also use Advanced Features view to disable protection from accidental deletion.

Following are the steps an expert might take to complete this lab:

1. From Hyper-V Manager, select **CORPSERVER**. Expand the window to view all virtual machines.
2. Right-click the **CorpDC** server and select **Connect**.
3. From Server Manager, select **Tools** > **Active Directory Users and Computers**.
4. Select **View** > **Advanced Features**.
5. Browse the Active Directory structure to the *OU*.
6. Right-click the *OU* and select **Properties**.
7. Select the **Object** tab.
8. Unmark **Protect object from accidental deletion**; then click **OK**.
9. Right-click the *OU* again and select **Delete**.
10. Click **Yes** to confirm deleting the OU.
11. Repeat steps 5-10 to delete the other OUs.
12. Select **View** > **Advanced Features** again to turn off the advanced features view.
