Elapsed Time: 3 minutes 7 seconds   Required Score: 100%

Task Summary

Actions you were required to perform:

✔ Select the Photosmart Plus inkjet printer

✔ Connect the printer to the workstation

✔ Plug in the printer to surge protector

✔ Configure the printer as the default

Explanation

In this lab, your task is to complete the following:

- Select the appropriate printer. Choose the printer with the best quality and the fastest print capabilities.
- Connect the printer to the computer using the appropriate cable for a local printer.
- Plug the printer into the surge protector.
- Switch to the operating system and verify the printer's installation.
- Set the new printer as the default printer.

Complete this lab as follows:

1. Choose a printer as follows:
    a. Above the computer, select **Back** to switch to the back view of the computer.
    b. On the Shelf, expand **Printers**.
    c. Read the **description** for each of the available printer types.
    d. Identify the *printer* that best meets the scenario requirements.
    e. Drag the **HP Photosmart Plus** printer to the Workspace.

2. Connect the printer as follows:
    a. Above the printer, select **Back** to switch to the back view of the printer and examine the connection port.
    b. On the Shelf, expand **Cables**.
    c. Read the **description** for each cable.
    d. Select the **USB cable (A/B)**.
    e. Under Selected Component, drag the **USB Type B Connector** to the port on the back of the printer.
    f. Under Selected Component, drag the **USB Type A Connector** to the port on the back of the computer.
    g. On the Shelf, select the **Power Adapter for HP**.
    h. Under Selected Component, drag the **Power Adapter, DC** to the connector on the printer.
    i. Under Selected Component, drag the **Power Adapter, AC** to an AC power port on the surge protector.

3. Verify the installation and set the printer as the default printer:
    a. On the monitor, select **Click to view Windows 10**.
    b. Select **Start**.
    c. Select **Settings**.
    d. Select **Devices**.
    e. From the left menu, select **Printers & scanners**. You should see the newly installed printer.
    f. Select **HP Photosmart Plus**.
    g. Select **Set as default**.
