Task Summary

✔ Create the Workstation Settings GPO

✖ Link the GPO to the TempMarketing OU

✖ Link the GPO to the TempSales OU

✖ Link the GPO to the Support OU

✖ Import the policy from C:\Templates\ws_sec.inf

Explanation

In this lab, your task is to configure Group Policy on CorpDC as follows:

- Create a GPO named **Workstation Settings**.
- Link the Workstation Settings GPO to the following OUs:
    - The **TempMarketing OU** (in the Marketing OU)
    - The **TempSales OU** (in the Sales OU)
    - The **Support OU**
- Import security settings from the security template (ws_sec.inf) located in C:\Templates for the Workstation Settings GPO.

Complete this lab as follows:

1. Create a GPO as follows:
    a. From Hyper-V Manager, select **CORPSERVER**.
    b. Right-click **CorpDC** and select **Connect**.
    c. From Server Manager, select **Tools** > **Group Policy Management**.
    d. Browse to the *OU* where the policy will be linked.
    e. Right-click **Workstations** and select **Create a GPO in this domain, and link it here**.
    f. Enter the *GPO name*.
    g. Click **OK**.

2. Link an OU to a GPO as follows:
    a. Browse to the *OU* to be linked to the Workstation Setting GPO.
    b. Right-click the *object* and select **Link an Existing GPO** to link the GPO to additional objects.
    c. Select the *GPO* from the list; then click **OK**.
    d. Repeat steps 1h-1j to link additional OUs.

3. Import a security policy template as follows:
    a. Right-click the *GPO* and select **Edit**.
    b. Under Computer Configuration, expand **Policies** > **Windows Settings**.
    c. Right-click **Security Settings** and select **Import Policy**.
    d. Browse to and open **C:\Templates**.
    e. Select **ws_sec.inf**.
    f. Select **Open**.
