Task Summary

✔ Deploy the AcctPrinter printer for computers using AccountingGPO   Show Details

✔ Deploy the SalesPrinter printer for users using SalesGPO   Show Details

Explanation

In this lab, you perform the following tasks:

- Deploy the **AcctPrinter** printer to all computers in the Accounting OU using the existing AccountingGPO Group Policy object.
- Deploy the **SalesPrinter** printer to all users in the Sales OU using the existing SalesGPO Group Policy object.

Following are steps that an expert might take to perform the tasks in this lab:

1. From Hyper-V Manager, select **CORPSERVER**.
2. Maximize the window to view all virtual machines.
3. Right-click **CorpFiles16** and select **Connect**.
4. From Server Manager, select **Tools** > **Print Management**.
5. Expand **Print Servers**.
6. Expand the *server node*.
7. Select **Printers**.
8. Deploy the printer connection to computers as follows:
   a. Right-click the *printer object* and select **Deploy with Group Policy**.
   b. Next to the GPO name field, select **Browse**.
   c. Double-click the *OU name* to find a GPO linked to an OU.
   d. Select the *GPO*; then click **OK**.
   e. Under Deploy this printer connection to the following, select **The computers that this GPO applies to (per machine)** to deploy the printer to the computer regardless of who is logged on.
   f. Click **Add**.
   g. Click **OK**.
   h. Click **OK** to acknowledge the message.
9. Deploy the printer connection to users as follows:
   a. Right-click the *printer object* and select **Deploy with Group Policy**.
   b. Next to the GPO name field, select **Browse**.
   c. Double-click the *OU name* to find a GPO linked to an OU.
   d. Select the *GPO*; then click **OK**.
   e. Under Deploy this printer connection to the following, select **The users that this GPO applies to (per user)** to deploy the printer to users regardless of the computer they log on to.
   f. Click **Add**.
   g. Click **OK**.
   h. Click **OK** to acknowledge the message.
10. In the left pane, select **Deployed Printers** to view the deployed printers.
