Task Summary

✔ Remove the share name Builds from the H:\Projects folder

Explanation

In this lab, you remove the share name Builds from the H:\Projects folder as follows:

1. From Hyper-V Manager, select **CORPSERVER**.
2. Maximize the window to view all virtual machines.
3. Right-click **CorpFiles16** and select **Connect**.
4. On the taskbar, open **File Explorer**.
5. Navigate to the *shared folder*.
6. Right-click the *folder* and select **Properties**.
7. Select the **Sharing** tab.
8. Select **Advanced Sharing**.
9. From the Share name drop-down list, select the *share name* you want to remove.
10. Select **Remove**.

    The **Remove** button is not available unless at least two share names exist for the folder or drive. If only one share name exists, you can delete the share name by removing the shared folder or drive.

11. Click **OK** to close the Advanced Sharing dialog.
12. Click **OK** to close the Properties window.
